

Deep Tech Talk Webinar Series: From Research to Marketplace

Innovation and Entrepreneurial Mindset in Engineering Education

21 October 2020 via Zoom
8–9:15 a.m. (U.S. CDT) / 1–2:15 p.m. (GMT) / 4–5:15 p.m. (Doha)

Register at tx.ag/OH2EffZ

Dr. Mark Weichold

Senior Associate Dean, College of Engineering, Texas A&M University (USA)

Dr. Ivan Iordanoff

Vice President for Research and Innovation, Arts et Métiers Institute of Technology (France)

Dr. Ramon Wyss

Emeritus Professor and Former Vice President, KTH The Royal Institute of Technology (Sweden)

Globally it is becoming more and more common in universities to integrate programs to encourage young minds to embrace principles of innovation and entrepreneurship early in their career. This webinar will bring together leaders from academic institutions who will discuss formal and extracurricular opportunities at their institutions and how they are being integrated with academic programs in engineering.
