Horizon 2020 is the EU funding programme for research and innovation

Horizon 2020 programme is running from 2014 to 2020 with a €80 billion budget. It provides research and innovation funding for multi-national collaboration projects as well as for individual researchers and supports SMEs with a special funding instrument.

For more information on Horizon 2020, please see the H2020 web site.

για τον Ορίζοντα 2020

Decoding a call text: Integrated local energy systems (Energy islands)

Topic Identifier

Example: **LC-SC3-ES-3-2018-2020**

Specific challenge

The fast growth of energy production from renewable energy sources offers new and economically attractive opportunities for decarbonising local energy systems (e.g. isolated villages, small cities..). It is also a technological and financial challenge for the electricity network to integrate more renewables [...] and to optimise the electricity system operation in synergy with other energy carriers/vectors.

Scope

Proposals will develop and demonstrate solutions which analyse and combine, in a well delimited system, all the energy vectors that are present and interconnect them, where appropriate, to optimise their joint operation that is demonstrated by an increased share of renewables in and higher energy efficiency of the local energy system

Indicative Budget

The Commission considers that proposals requesting a contribution from the EU of between EUR 5 to 6 million

Expected impact

TRL will range between 5 and 8 (see part G of the General Annexes). Proposals will indicate the estimated levels of TRL at the beginning and at the end of the project.

validate solutions for decarbonisation of the local energy system, **enhance the involvement of local energy consumers and producers, validate** approaches, strategies and tools to **safely and securely operate** an **integrated local energy system** across energy vectors

Cross-cutting areas

[Socio-economic science and humanities](#), Clean Energy, RRI, International Cooperation, Open Innovation

Type of action

Innovation Action

Producing a concept note (initial outline of your idea)

> Write preliminary 2-3 pages about your:

- > objectives
- > European relevance (WP, topic)
- > target group (user groups)
- > Impact envisaged
- > Methodology to be followed
- > major steps (work packages)
- > Performance measurements (KPIs)
- > Type of expertise needed: intended consortium (countries, types of organisations)
- > Your role!! (coordinator, core team?)

Producing a concept note (initial outline of your idea)

- › It helps you identify partners
- › It helps you in your communication activities (ie. NCPs)
- › Useful for establishing common understanding
- › External reality check: Consult with market actors – check their understanding and interest. Profit from their feedback to decide whether to take your idea forward

Title/ACRONYM

Objective

The aim of the proposal is to...

The key research question/challenge is to...

Conformity with the call and work programme.

Background/short description

- Why bother? What problem are you trying to solve?
- Is it a European priority? Could it be solved at National level?
- Is the solution already available?
- Why now? What would happen if we did not do this now?
- Why you? Are you the best people to do this work?

Results/impact

- Expected results - what will come out of the project? Who will use the results?
- Why do the people interested in the results should use the results?
- How are you planning the transfer of results?
- What will be changed? Post project situation

Excellence

- 1.1 Objectives
- 1.2 Relation to the work programme
- 1.3 Concept and approach
- 1.4 Ambition

στην υπηρεσία της επιχείρησής σας

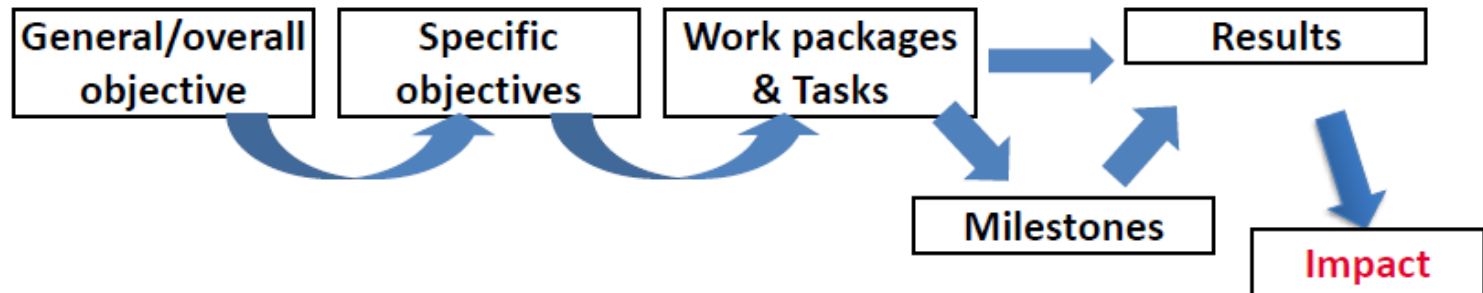

Εθνικό Σημείο Επαφής
για τον Ορίζοντα 2020

1.1 Objectives

*"Describe the overall and specific objectives for the project, which should be **clear, measurable, realistic and achievable** within the duration of the project. Objectives should be **consistent with the expected exploitation and impact** of the project (see section 2)."*

**Objectives should be translated into WPs,
and actionable tasks**

1.2 Relation to the work programme, 1.3 Methodology

- › Dismantle the Work programme (decode it)
- › Make a table of each element **identified** in the call text and **correlate** it with your proposal (objectives, tasks)

CONCEPT & METHODOLOGY

- › Which models, which hypothesis and assumptions
- › Inter-disciplinary considerations (good for integration of social sciences and humanities)
- › Technology readiness level (TRL)
- › Relevance to society, gender dimension with respect to the actual content of your proposed activities: see more:

1.4 Ambition

- › What is the state of the art ? How is your proposal more advanced than..
 - Best available solution at EU-level
 - EU-funded projects already funded how do you go beyond state of art?
 - What is your innovation potential. Is your proposal disruptive ie. proposing truly novel concepts? Is it market changing, leading to new products or services?
 - Freedom to operate?

Impact

2. Impact

- 2.1 Expected Impact
- 2.2 Measures to maximize impact
 - a) Dissemination and exploitation of results
 - b) Communication activities

Important considerations

- Innovation Actions (IAs) receive extra weight in the impact section (1.5)
- Proposals in IA calls that rank the same, the proposal with the **highest**

2.1 Expected Impact

The extent of the benefits for

- Science
- Technological progress
- Environment
- Society
- Economy – EU Competitiveness

Types of impacts

A table can be quite practical to summarise

Academic impact

- contribution to scientific advances, across and within disciplines
- advances in understanding, method, theory and application
-

Economic impact

- Innovation capacity
- Competitiveness - Growth - Jobs - Budget savings
- New market opportunities
- market revenue, SMEs, patents
- ...

Societal impact

- Quality of life
- Climate Change
- Public services
- Policy making
- Creative activity
- Public engagement
-

Other impact

- Political...?
- Contribution to educational training
- Sustainable development
- Support EU policies
- UN Sustainable development goals

Any barriers to your expected impacts?

- › Acknowledge important barriers that might
 - prevent you from realizing your objectives.
 - Such as laws, freedom to operate, consumers' resistance to change, interoperability issues
- › Will the impact envisaged require any follow up steps?
- › What metrics are you going to introduce?

2.2. Measures to maximize impact “Dissemination & Exploitation of results”

Admissibility condition!!

› Provide a draft plan for the dissemination and exploitation of project’s results

› **Don’t confuse dissemination with exploitation**

› For Innovation actions, include a Business Plan, if relevant

3.3 Consortium as a whole

A check list

- Describe the consortium. How will it match the project's objectives, and bring Together the necessary expertise? How do the members complement one another (and cover the value chain, where appropriate)?
- In what way does each of them contribute to the project? Show that each has a valid role, and adequate resources in the project to fulfil that role.
- If applicable, describe the industrial/commercial involvement in the project to ensure exploitation of the results and explain why this is consistent with and will help to achieve the specific measures which are proposed for exploitation of the results of the project (see section 2.2).
