Introducing the Marie Skłodowska-Curie Actions (MSCA)

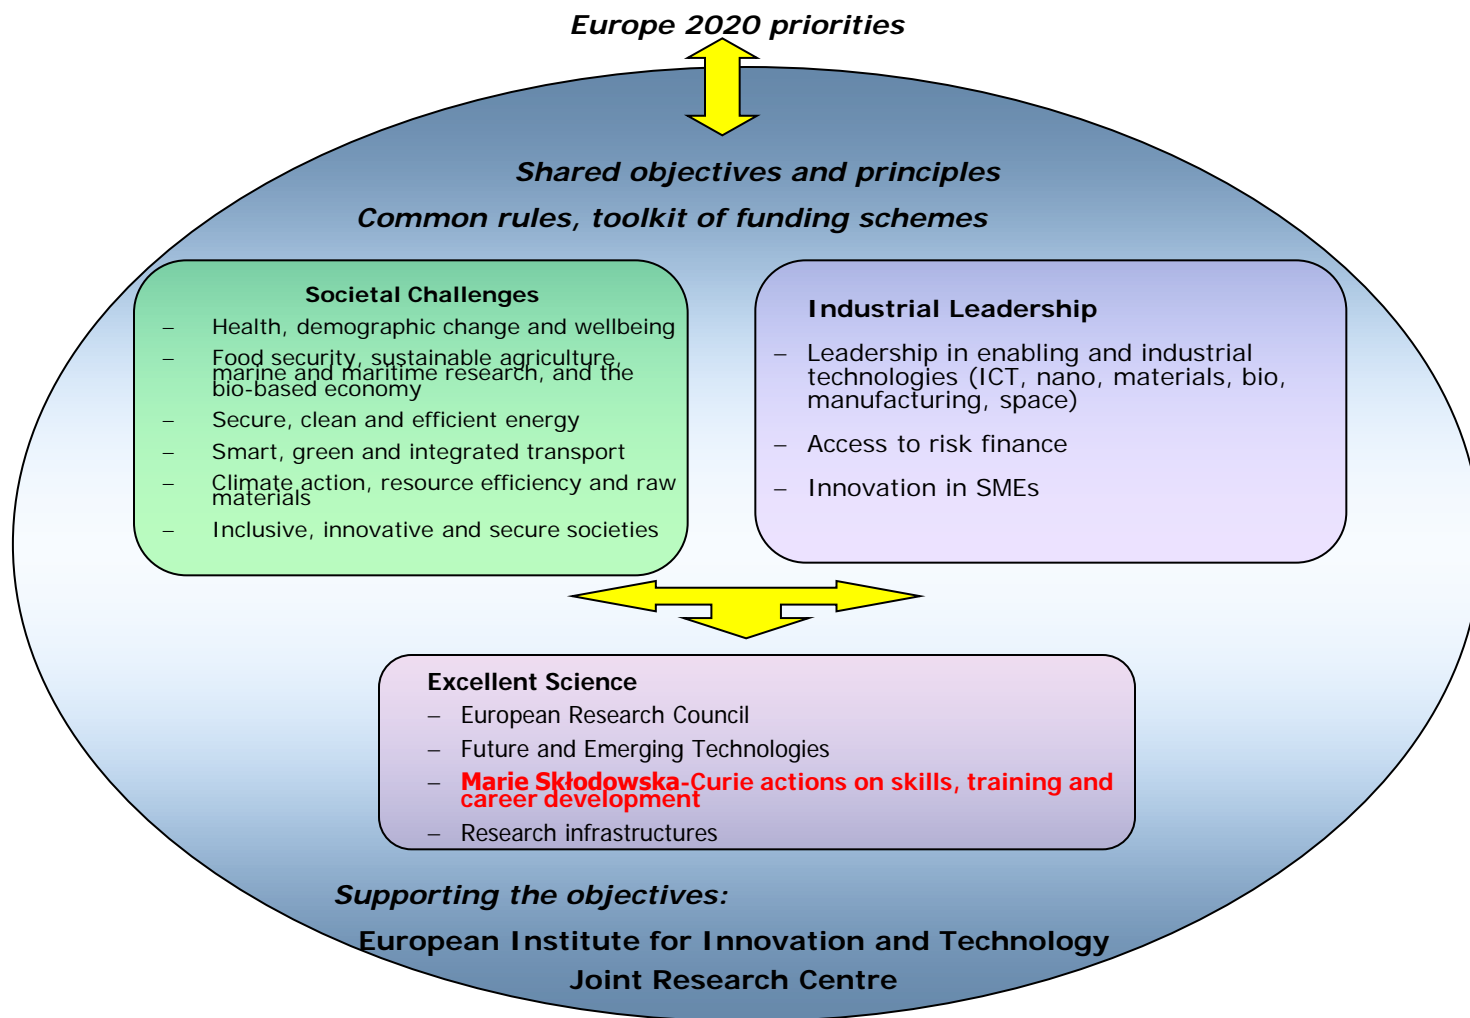

H2020

The EU Research intends to overrun the fragmentation imposed by the national boundaries: the EU level ensures an important budget line, deep transnational coordination, strong cooperation, full exploitation of networks and the exchange of human capital.

One of the main important aspects of the EU Research policy is the realization of a European Research Area (ERA) where connection between researches and ideas can bring to high quality research.

“Priority 1 – Excellent Science” concrete elements to favour infrastructures’ access, to facilitate knowledge transfer, and guarantee open access to results.

Horizon 2020: integrated programme of € 79 billion coupling research to innovation

- **MSCA: € 6.16 billion** for excellent and innovative research training
- Open to **all** career **stages and nationalities**
- **Bottom-up** approach
- Attractive **career** and **knowledge-exchange** opportunities through **mobility**
- **International**, inter-sectoral and interdisciplinary

What are the Marie Skłodowska Curie Actions?
